EDU Group Participates in CIS Fundraising Carnival, Supporting School Community and Engagement

Engaging with School Community Through Education and Outreach Activities

EDU Group recently participated in a fundraising carnival organised by Chinese International School (CIS). The event brought together students, parents, and partners to support school initiatives and encourage community engagement through interactive activities.

During the event, EDU Group engaged with members of the CIS community and took part in outreach activities that promoted communication, collaboration, and shared learning experiences. The participation reflected the Group's support for school-led initiatives and its interest in maintaining close connections with education communities.

EDU Group values opportunities to engage with schools and contribute to activities that foster positive interaction, responsibility, and community spirit. Participation in the CIS fundraising carnival aligns with the Group's ongoing commitment to education-related engagement and collaboration.
